About

Highly specialised in Mobile Development, gathering 7 years of experience. Always trying to keep on learning by exploring new technologies and code languages. In this sense, my current job as an IT Trainer enables me to learn, share and transfer knowledge.
I would like to work in a company where I am able to reach and expand all my knowledge and potential.

Work Experience

March 2017 ● iOS Developer - Leipzig, Germany

Developing Südkurier iOS application. Newspaper app to read, save and rate the latest news. App developed in Swift. Working with a full team, Project Manager, QA, back-end and designer.
